

Gerontology course list for Fall 2013

To students and faculty advisers interested in Gerontology –

The Schedule of Classes for Fall 2013 can be searched for courses that are cross-listed to Gerontology. Gerontology teaches no courses of its own under our abbreviation GERN, but the Schedule does list courses related to aging.

Search the Schedule at <https://classes.ku.edu/Classes/ExternalDisplay.action>

Set the search to be “Undergrad and Graduate” and for “FALL 2013.” Click the “More Options” button in the upper right hand corner. In the box that appears, go to the line “Any cross-reference” and scroll down to the line, “Cross-referenced with GERN.” Then click the “Search” button above the box. The list of courses will appear. I have pasted the list in below, but it may not be visible on your viewer.

Please note, however, that the items below are the Registrar’s cross-listing, which we reviewed the best we could. Take care that the content of the course is what you want because some departments put changing content under generic course numbers that sometimes have age-related content. Consider this list the starting point of your course selection process.

We would also appreciate hearing about any courses that are not listed here, but should be.

Thank you.

David Ekerdt

Schedule of Classes Search Results As Of 7/10/2013

ABSC 787

Applied Behavioral Science - Gerontology Proseminar (3) Fall 2013

A proseminar coordinated by the Gerontology Center. The proseminar explores essential areas of gerontology for researchers and practitioners, providing a multidisciplinary (e.g., psychology, biology, sociology, communication) perspective on aging. The proseminar surveys contemporary basic and applied research, service programs, and policy and management issues in gerontology. (Same as AMS 767, COMS 787, PSYC 787, and SOC 767.) (Formerly HDFL 787.)

Type	Time/Place and Instructor	Credit Hours	Class #	Seats Available
LEC	Ekerdt,David J	3	12800 (Save)	15
Notes	R 03:00 -05:00 PM DHDC 3000 - LAWRENCE			

AMS 767

American Studies (AMS) - Gerontology Proseminar (3) Fall 2013

A proseminar coordinated by the Gerontology Center. The proseminar explores essential areas of gerontology for researchers and practitioners, providing a multidisciplinary (psychology, biology, sociology, and communication) perspective on aging. The proseminar surveys contemporary basic and applied research, service programs, and policy and management issues in gerontology. (Same as ABSC 787, COMS 787, PSYC 787, and SOC 767.) (Formerly HDFL 787.)

LEC	Ekerdt,David J	3	10181 (Save)	15
Notes	R 03:00 -05:00 PM DHDC 3000 - LAWRENCE			

ARCH 600

Architecture - Special Topics in Architecture: (1-3) Fall 2013

This course is for the study of architectural topics on a one time or experimental basis in response to changing needs and/or resources in the Program. It may be offered concurrently by different instructors under different subtitles as announced in the Timetable. May be repeated for credit. Prerequisite: Variable.

Type	Time/Place and Instructor	Credit Hours	Class #	Seats Available

Notes	APPT KULC APPT - LAWRENCE		Inst Req	

AUD 811

Audiology - Hearing Disorders (3) Fall 2013

A study of disorders of the auditory system including anatomical, physiological, perceptual, and audiological manifestations of pathologies affecting hearing. Prerequisite: AUD 810 and AUD 829.

Type	Time/Place and Instructor	Credit Hours	Class #	Seats Available
LAB	Johnson,Tiffany Ann	3	25262 (Save)	14
Notes	W 09:00 -11:50 AM - KUMC-K			

COMS 787

Communication Studies - Gerontology Proseminar (3) Fall 2013

A proseminar coordinated by the Gerontology Center. The proseminar explores essential areas of gerontology for researchers and practitioners, providing a multidisciplinary (psychology, biology, sociology, and communication) perspective on aging. The proseminar surveys contemporary basic and applied research, service programs, and policy and management issues in gerontology. (Same as ABSC 787, AMS 767, PSYC 787, and SOC 767.) COMS 945

Communication Studies - Seminar in Social Support (3) Fall 2013

This course is a survey of the many disciplines of the fundamental form of communication known as social or emotional support or comforting. Emphases include message-, receiver-, and interactionally-oriented approaches, as well as support contexts, dilemmas, structures, features, and positive effects on physical and mental health.

HP&M 810

Health Policy & Management - Healthcare System (3) Fall 2013

The structure and function of the components of the U.S. healthcare system are introduced in the context of the history, values and social forces that influenced its development and evolution. Students gain exposure to the concepts and vocabulary associated with aspects of the system, including delivery (providers, institutions, services), resources (finance, payment, insurance), population and public health, and outcomes (cost, access, quality). Healthcare outcomes from consumer, clinical, and societal perspectives are explored. LEC

HP&M 858

Health Policy & Management - Health and Social Behavior (3) Fall 2013

Healthcare as a cultural and socio-behavioral system is presented. Using research and theory, students explore alternative perspectives on the nature of medicine and healing within comparative health systems, both U.S. and abroad. Students examine at an advanced level how healthcare organizational structures contribute to patient health outcomes and influence employee behaviors. The course reinforces the nature and characteristics of the health professions, particularly medicine and nursing perceptions, and the complex behavioral dynamics of health professionals with organizational leaders. HP&M 876

Health Policy & Management - Medicare & Medicaid (3) Fall 2013

Provides students with an in-depth understanding of the three publicly financed health programs that impact virtually all aspects of the American healthcare system - Medicare, Medicaid and Children's Health Insurance Programs (CHIP). Explores history and evolution of each program, plus specific operational issues such as eligibility, financing, management reporting, state/federal coordination, quality of care and outcomes management and influence of recent legislation. Prerequisite: Permission of the instructor. LEC

HSES 418

Health, Sport, & Exercise Sci - Health Aspects of Aging (3) Fall 2013

This course will consist of a Holistic Health approach to the various components of the aging process. Special emphasis will be placed on the demographic aspects of aging; normal aging changes and deviations in the aging process (pathophysiology); the relationship between mental and physical health, and the implications for the promotion of risk reduction and prevention principles that can effectively improve the quality of life for older individuals. Prerequisite: A course in personal and community health.

Notes	R 03:00 -05:00 PM DHDC 3000 - LAWRENCE			

PSYC 790

Psychology (PSYC) - Statistcl Mthds in Psycholgy I (4) Fall 2013

Elementary distribution theory; t-test; simple regression and correlation; multiple regression and multiple correlation; curvilinear regression; logistic regression; general linear model. Applications across the behavioral and social sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: A beginning course in statistics and graduate standing, or consent of instructor.

Type	Time/Place and Instructor	Credit Hours	Class #	Seats Available

Notes	APPT KULC APPT - LAWRENCE			

PSYC 815

Psychology (PSYC) - Design&Analysis Devlpmntl Rsch (3) Fall 2013

Coverage of the philosophy and basic principles of group-design research, with a special emphasis on designs that are appropriate for developmental studies. Designs for both experimental and quasi-experimental research are covered, and appropriate statistical procedures are presented concomitantly with the designs. Individual-difference analyses and statistical control issues are also addressed.

Type	Time/Place and Instructor	Credit Hours	Class #	Seats Available
LEC	Roberts,Michael C	3	21411 (Save)	9
Notes	T 09:00 -11:50 AM DHDC 2009 - LAWRENCE			

PSYC 893

Psychology (PSYC) - Multivariate Analysis (4) Fall 2013

Introduction to the central methods used in the analysis of multivariate data. Includes linear transformations, multivariate analysis of variance, multivariate multiple regression, discriminant analysis, canonical correlation, factor analysis, and an introduction to methods for clustering and classification. Applications across the behavior and social sciences are emphasized. Course consists of three hours of

lecture and a required one-hour lab session where computing applications are taught. Prerequisite: PSYC 790 or equivalent, or consent of instructor.

Type	Time/Place and Instructor	Credit Hours	Class #	Seats Available
LEC	Wu,Wei	4	24318 (Save)	Full

LBN	Wu,Wei	4	24324 (Save)	Full
Notes	APPT KULC APPT - LAWRENCE			

PSYC 895

Psychology (PSYC) - Categorical Data Analysis (4) Fall 2013

Multivariate analyses of count data. Error models, statistical inference, loglinear models, logit models, logistic regression. Homogeneity, symmetry, and selected other topics. Applications across the behavioral and social sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: PSYC 790 or equivalent, or consent of instructor.

Type	Time/Place and Instructor	Credit Hours	Class #	Seats Available
LEC	Deboeck,Pascal R	4	19766 (Save)	Full
Notes	T 02:00 -04:50 PM FR 458 - LAWRENCE			
LBN	Deboeck,Pascal R	4	19767 (Save)	Full
Notes	APPT KULC APPT - LAWRENCE			

PSYC 896

Psychology (PSYC) - Structural Equation Modeling I (4) Fall 2013

Introduction to statistical methods for modeling latent variables. Topics include a review latent variables, covariance structures analysis, mean structures analysis, confirmatory factor analysis (CFA), structural equation modeling (SEM), multiple group CFA, longitudinal CFA, longitudinal SEM, Hierarchical CFA, and Multi-trait Multi-Method SEM. Applications across the behavioral and social sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: PSYC 790 or equivalent, or consent of instructor.
